

University Admission

There are a total of 10 departments at the university that will admit graduate students. Admission criteria for each department are mentioned below:

Admission Criteria

Computer Science:

A bachelor's degree in computer science or a related field from an accredited institution.

Minimum GPA of 3.0 on a 4.0 scale in undergraduate coursework.

GRE scores (applicable).

Letters of recommendation highlighting the applicant's academic and/or professional achievements.

Statement of purpose outlining the applicant's career goals and research interests in computer science.

Relevant work experience or research experience in the field may be considered.

Business Administration (MBA)

A bachelor's degree from an accredited institution.

Minimum GPA of 3.0 on a 4.0 scale in undergraduate coursework.

GMAT or GRE scores.

Professional resume demonstrating relevant work experience.

Letters of recommendation from academic or professional references.

Statement of purpose outlining career objectives and reasons for pursuing an MBA.

Public Health

A bachelor's degree in public health, health sciences, or a related field.

Minimum GPA of 3.2 on a 4.0 scale in undergraduate coursework.

GRE scores (not applicable).

Statement of purpose detailing the applicant's interest in public health and career goals.

Letters of recommendation from academic or professional references.

Relevant work experience in public health or healthcare settings may be considered.

Electrical Engineering

A bachelor's degree in electrical engineering or a closely related field from an accredited institution.

Minimum GPA of 3.0 on a 4.0 scale in undergraduate coursework.

GRE scores (if applicable).

Letters of recommendation from academic or professional references.

Statement of purpose outlining the applicant's research interests and career goals in electrical engineering.

Relevant research experience or projects may be considered.

Creative Writing

A bachelor's degree in English, creative writing, or a related field.

Submission of a portfolio demonstrating writing proficiency (e.g., samples of creative work, publications, etc.).

Letters of recommendation from faculty or published authors familiar with the applicant's work.

Statement of purpose discussing the applicant's writing background, influences, and literary aspirations.

GRE scores (if required by the program).

Relevant writing experience or publications may be considered.

Environmental Science

A bachelor's degree in environmental science, biology, chemistry, or a related field.

Minimum GPA of 3.0 on a 4.0 scale in undergraduate coursework.

GRE scores (if applicable).

Letters of recommendation highlighting the applicant's academic and/or research experience.

Statement of purpose detailing the applicant's research interests and career goals in environmental science.

Relevant research experience or internships may be considered.

International Relations:

A bachelor's degree in international relations, political science, or a related field.

Minimum GPA of 3.2 on a 4.0 scale in undergraduate coursework.

GRE scores (if applicable).

Letters of recommendation from academic or professional references.

Statement of purpose discussing the applicant's interest in international relations, relevant experiences, and career goals.

Proficiency in a second language may be preferred.

Mechanical Engineering

A bachelor's degree in mechanical engineering or a closely related field from an accredited institution.

Minimum GPA of 3.0 on a 4.0 scale in undergraduate coursework.

GRE scores (if applicable).

Letters of recommendation from academic or professional references.

Statement of purpose outlining the applicant's research interests and career objectives in mechanical engineering.

Relevant research experience or projects may be considered.

Psychology (Clinical Psychology)

A bachelor's degree in psychology or a related field.

Minimum GPA of 3.5 on a 4.0 scale in psychology coursework.

GRE scores (including the psychology subject test if applicable).

Letters of recommendation from faculty or supervisors familiar with the applicant's academic and/or research abilities.

Statement of purpose discussing the applicant's interest in clinical psychology, relevant experiences, and career aspirations.

Clinical or research experience in psychology settings may be preferred.

Data Science:

A bachelor's degree in computer science, statistics, mathematics, or a related field.

Minimum GPA of 3.0 on a 4.0 scale in undergraduate coursework.

GRE scores (if applicable).

Strong quantitative and programming skills demonstrated through coursework or professional experience.

Letters of recommendation from academic or professional references.

Statement of purpose outlining the applicant's interest in data science, relevant experiences, and career goals.

Previous coursework or projects in data analysis or machine learning may be considered.

Tuition Fees, payment Deadline and sample courses for the graduate study

Computer Science:

- Tuition Fees: \$20,000 per year
- Payment Deadline: August 1st
- Sample Courses: Algorithms, Database Systems, Machine Learning, Software Engineering

Business Administration (MBA)

- Tuition Fees: \$30,000 per year
- Payment Deadline: July 15th
- Sample Courses: Strategic Management, Financial Analysis, Marketing Strategy, Leadership Development

Public Health

- Tuition Fees: \$25,000 per year
- Payment Deadline: July 30th
- Sample Courses: Epidemiology, Health Policy and Management, Biostatistics, Global Health

Electrical Engineering

- Tuition Fees: \$22,000 per year
- Payment Deadline: August 5th
- Sample Courses: Digital Signal Processing, Power Systems Engineering, Semiconductor Devices, Control Systems

Creative Writing:

- Tuition Fees: \$18,000 per year
- Payment Deadline: August 10th
- Sample Courses: Fiction Writing Workshop, Poetry Workshop, Screenwriting, Creative Nonfiction

Environmental Science:

- Tuition Fees: \$23,000 per year
- Payment Deadline: July 25th
- Sample Courses: Environmental Policy, Conservation Biology, Climate Change Science, Environmental Impact Assessment

International Relations:

- Tuition Fees: \$28,000 per year
- Payment Deadline: August 15th
- Sample Courses: International Security, Global Governance, Diplomatic History, Conflict Resolution

Mechanical Engineering:

- Tuition Fees: \$24,000 per year
- Payment Deadline: July 20th
- Sample Courses: Thermodynamics, Fluid Mechanics, Mechanical Design, Robotics

Psychology (Clinical Psychology):

- Tuition Fees: \$26,000 per year
- Payment Deadline: August 3rd
- Sample Courses: Abnormal Psychology, Counseling Techniques, Psychopathology, Neuropsychological Assessment

Data Science:

- Tuition Fees: \$27,000 per year
- Payment Deadline: July 28th
- Sample Courses: Data Mining, Statistical Learning, Big Data Analytics, Data Visualization

Orientation and Housing:

As we welcome our incoming graduate students to the university, we want to ensure a smooth transition into academic life. The first semester is an exciting time filled with orientation activities, coursework, and opportunities to engage with peers and faculty members.

Orientation days, scheduled between August 18th and 24th, will provide essential information about university resources, academic expectations, and campus life. Additionally, students will embark on a journey of learning and discovery through a diverse range of coursework, workshops, and seminars tailored to their respective fields of study.

We understand the importance of securing comfortable housing accommodations. Our university offers dormitory facilities with amenities such as shared kitchens, Wi-Fi access, and entertainment systems. However, please note that dormitory allocation is based on admission date, and availability is limited to 200 seats across 4 dorms. Dormitory fees of \$3,000 per semester are payable by August 15th to secure accommodation for the semester.

We encourage all students to actively participate in orientation activities, engage with their peers, and take advantage of the resources available to support their academic and personal growth. We wish you a successful and fulfilling semester ahead. Welcome to our university community!

Health Insurance Policy

At our university, the health and well-being of our students are of paramount importance. To ensure that all students have access to essential healthcare services, we require each student to enroll in our comprehensive health insurance policy valued at \$500 for the academic year. This policy provides coverage for basic medical needs, including doctor visits, prescription medications, and minor surgical procedures. In the event of any health concerns or medical needs, students can seek medical attention from healthcare providers within our network, and the costs will be covered by the insurance policy up to the specified limits.

It's important to note that while our health insurance policy offers coverage for a wide range of medical services, there may be instances where students encounter complicated health conditions or require specialized treatments beyond the scope of the policy. In such cases, students may be responsible for covering the additional costs incurred for their healthcare needs. Additionally, our health insurance policy does not extend coverage for dental or vision-related expenses, and students are encouraged to explore alternative options for these specific healthcare needs.

In recognition of the significant impact of mental health on overall well-being, our health insurance policy includes provisions for mental health support services. Students facing mental health challenges can access counseling and therapy sessions free of charge by scheduling appointments with licensed mental health

professionals. We understand the importance of providing holistic support to our students and are committed to promoting mental wellness alongside physical health.

By mandating the enrollment in our health insurance policy, we aim to safeguard the health and safety of our student body, ensuring that they have access to quality healthcare services throughout their academic journey. We believe that prioritizing preventive care and providing comprehensive health insurance coverage fosters a supportive and thriving campus community where students can focus on their academic pursuits with peace of mind.

Sports activity

The university prides itself on offering an expansive array of sports and athletic facilities, fostering a culture of physical fitness, sportsmanship, and holistic well-being among its student body. With a commitment to supporting students' athletic aspirations and promoting a healthy lifestyle, the university provides access to top-notch facilities, including an excellent gymnasium, basketball courts, and over 20 other sporting venues, all available free of cost to students.

At the heart of the university's athletic offerings lies its state-of-the-art gymnasium, a hub of activity where students can engage in a diverse range of fitness programs and activities tailored to meet their individual needs and interests. From cardiovascular equipment to strength training machines, the gymnasium provides students with the tools they need to achieve their fitness goals, whether they're aiming to build muscle, improve endurance, or simply stay active and healthy.

Beyond the gym, the university boasts a series of meticulously maintained basketball courts, where students can hone their skills on the hardwood, compete in intramural leagues, or simply enjoy a casual pickup game with friends. With ample space for dribbling, shooting, and fast-paced gameplay, the basketball courts serve as a vibrant hub of athletic activity, fostering camaraderie and teamwork among students from all walks of life.

In addition to basketball, the university offers a diverse array of sporting facilities, catering to a wide range of interests and passions. From tennis courts to swimming pools, soccer fields to track and field stadiums, students have access to a wealth of athletic resources, enabling them to pursue their athletic endeavors with passion and dedication. Whether they're aspiring athletes with dreams of competing at the collegiate level or simply looking to stay active and healthy, students can find an outlet for their athletic ambitions at the university.

One of the most remarkable aspects of the university's athletic program is its commitment to providing students with opportunities to pursue professional careers in sports. With access to world-class coaching staff, state-of-the-art training facilities, and a supportive community of fellow athletes, students have the resources they need to excel in their chosen sport and pursue their athletic dreams to the fullest. Whether they're aspiring to compete at the highest levels of collegiate athletics or aiming for a career in professional sports, the university offers the support and guidance students need to succeed on and off the field.

While many of the university's sporting facilities are available free of charge to students, there may be instances where students require access to specific equipment or resources to participate in certain sports or activities. In such cases, the university may charge a nominal fee to cover the cost of specialized equipment, training materials, or facility rentals. However, the university is committed to keeping these costs affordable and accessible, ensuring that all students have the opportunity to pursue their athletic passions without financial barriers.

In conclusion, the university's athletic program stands as a testament to its commitment to fostering a vibrant and inclusive campus community, where students can pursue their athletic ambitions, develop lifelong skills, and cultivate a passion for physical fitness and well-being. With access to world-class facilities, professional

coaching staff, and a supportive community of fellow athletes, students have the resources they need to thrive in both their academic and athletic pursuits. Whether they're shooting hoops on the basketball court, swimming laps in the pool, or competing on the track, students at the university are empowered to reach their full potential and achieve greatness in every aspect of their lives.

Course Registration Policy

At the beginning of each semester, students are required to register for courses through their student profile on the university's online portal. The available courses for registration will be notified in the student profile, and students are advised to register for their desired courses as soon as they become available. Early registration ensures that students secure a spot in their preferred courses and helps in organizing class schedules effectively.

Students have the flexibility to make changes to their course registration up until the end of the third academic week of the semester. During this period, students may add, drop, or swap courses without incurring any financial penalties. However, any changes made to course registration after the third academic week may result in financial penalties, and students may not receive a refund for the course fees deposited.

The passing grade for each course is set at 60%. Students are expected to meet the minimum passing grade to successfully complete the course and earn credit towards their degree. In cases where a student does not achieve the passing grade, they have the option to retake the same course in a subsequent semester to improve their grade.

Retaking a course allows students the opportunity to strengthen their understanding of the course material and improve their performance. However, students should be mindful of any academic policies regarding the maximum number of attempts allowed for a particular course and any associated fees or restrictions.

It's important for students to carefully consider their course selections and academic goals when registering for courses each semester. Academic advisors and faculty members are available to provide guidance and support to students in selecting courses that align with their academic interests, career aspirations, and degree requirements.

By adhering to the course registration policy outlined above, students can make informed decisions about their academic journey, maximize their learning opportunities, and progress toward their educational goals effectively. The university remains committed to supporting students throughout the course registration process and ensuring a seamless academic experience for all.

Career Center Services

The university is dedicated to supporting students in their career development and transition from academia to the professional world. Our Career Center offers a range of free services and resources designed to help students explore career options, develop job search skills, and connect with prospective employers.

1. **Career Exploration Workshops:** The Career Center organizes workshops and seminars to help students explore various career paths, industries, and job opportunities. These sessions cover topics such as resume writing, networking strategies, and job search techniques, providing students with valuable insights into the world of work.

2. **Individual Career Counseling:** Our team of career advisors is available to meet one-on-one with students to discuss their career goals, assess their strengths and interests, and create personalized career plans. These sessions offer students tailored guidance and support as they navigate their career journey.
3. **Mock Interviews:** To help students prepare for real-world interviews, the Career Center conducts mock interview sessions where students can practice their interview skills and receive feedback from experienced professionals. These simulated interviews simulate real-life scenarios and help students build confidence and improve their performance.
4. **Job Fairs and Networking Events:** Throughout the year, the Career Center hosts job fairs, networking events, and employer information sessions where students can connect with recruiters, learn about job opportunities, and expand their professional network. These events provide valuable opportunities for students to make meaningful connections with prospective employers and explore career possibilities.
5. **Career Resources:** The Career Center provides access to a wide range of resources, including online job boards, career guides, and industry-specific information. Students can access these resources to research companies, explore job postings, and stay informed about trends and developments in their chosen field.
6. **Alumni Mentorship Program:** Our alumni mentorship program pairs current students with alumni who can offer guidance, advice, and support as students navigate their career paths. Alumni mentors provide valuable insights into their own career experiences and help students build valuable connections in their chosen fields.
7. **Post-Graduation Support:** For graduating students, the Career Center offers continued support as they transition from college to career. Graduates can access job search assistance, resume reviews, and interview preparation services to help them secure employment and launch their professional careers.

The Career Center encourages all students to take advantage of these valuable resources and services throughout their academic journey. By actively engaging with the Career Center, students can enhance their professional skills, explore career options, and position themselves for success in the competitive job market. With the support of the Career Center, our students are well-equipped to pursue their career goals and achieve their full potential in their chosen fields.

International Student Support

At our university, we are committed to fostering a diverse and inclusive campus community that welcomes students from around the world. We understand that international students may have unique needs and requirements, particularly when it comes to visas and permits for studying abroad. That's why our International Office is dedicated to providing comprehensive support and assistance to international students throughout the visa application process and their transition to campus life.

1. **Visa Assistance:** The International Office offers personalized support to international students in navigating the visa application process. Our experienced advisors are available to answer questions, provide guidance on required documentation, and assist with completing visa application forms. We work closely with immigration authorities to ensure that international students have the necessary visa and permits to study at our university.
2. **Pre-Arrival Support:** Prior to their arrival on campus, international students receive detailed information and resources to help them prepare for their journey. This includes guidance on travel arrangements, accommodation options, and important documents to bring. Our International Office remains available to address any concerns or questions that students may have as they prepare to embark on their study abroad experience.
3. **Orientation Programs:** Upon arrival at the university, international students participate in comprehensive orientation programs designed to help them acclimate to campus life and the local community. Orientation sessions cover a range of topics, including academic expectations, campus resources, cultural adjustment, and immigration regulations. International students have the opportunity

to connect with peers, faculty, and staff, and learn valuable information to support their successful transition to university life.

4. **Immigration Compliance:** It is essential for international students to maintain compliance with immigration regulations throughout their time at the university. Our International Office provides ongoing support and guidance to ensure that students understand their visa requirements and obligations. We offer assistance with visa renewals, extensions, and other immigration-related matters to help international students remain in good standing with immigration authorities.
5. **Access to Services:** International students have access to a range of support services and resources to help them thrive academically, socially, and personally. This includes academic advising, counseling services, cultural programming, and opportunities for engagement and leadership development. Our goal is to create a supportive and inclusive environment where all students feel valued and empowered to succeed.

It's important to note that international students must have a valid visa and permits in order to join classes at the university. Our International Office works diligently to ensure that international students have the necessary documentation in place prior to the start of the semester. We are committed to providing comprehensive support and assistance to international students throughout their academic journey, and we welcome students from around the world to join our vibrant and diverse community.
